J.M.R. Electric Limited
301 Thames Road East
Exeter, ON, N0M 1S3
Phone: 519-235-1516

Project Description:

The hospital will be a single storey structure with a full lower level and a mechanical penthouse. It will be approximately 78,000 square feet. The building will be constructed primarily of cast in place reinforced concrete on the lower level and steel frame on the upper level. The remaining roof and penthouse will be constructed of structural steel. The building envelope will consist of architectural stone veneer, reinforced fibre cement panels, metal panels and glazing.

Firms interested in submitting tenders on the project should contact the appropriate pre-qualified firms for bidding contacts and details. Interested firms are asked not to contact Grey Bruce Health Services for information.

Thanks
Pearl
